ULTRA COMPACT LED NICHE LIGHT

atom

The **ATOM** Series combines premium design and LED performance in a package small enough to fit anywhere. Perfect for pools with step and beach entries that require illumination, but with the performance to light even the largest of pools.

Featuring German engineered LED's & optics for superior light distribution, detachable cable for hassle free service and Spa Electrics' patented DuoSink® Heat sink technology, ensuring the **ATOM** Series will keep performing year after year.

The **ATOM** Series is designed and manufactured in Australia and backed by Spa Electrics' industry leading customer care network. For more information on the **ATOM** Series and our other products, please visit: **www.spaelectrics.com.au**
