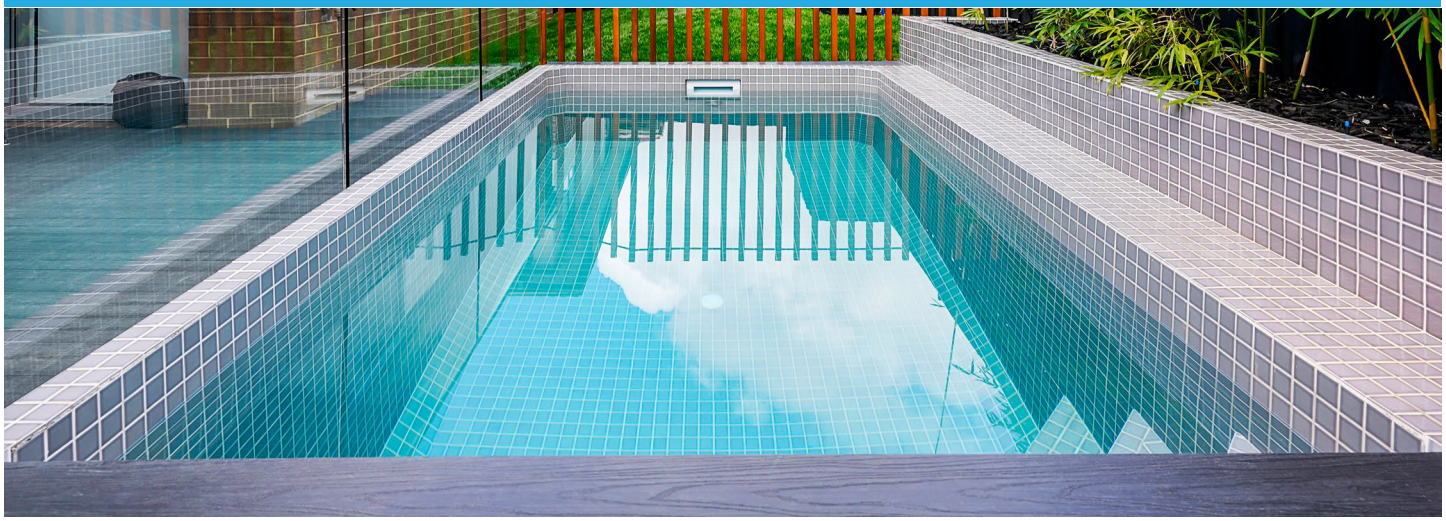
DELTA

9,500L Rectangle - with seats

4,000mm x 2,300mm x 1,600mm



THE IDEAL SOLUTION FOR THOSE WANTING A MID SIZED PLUNGE POOL! THE DELTA IS THE FIRST RECTANGLE POOL THAT WAS AVAILABLE FROM PLUNGE POOLS DIRECT

The Delta is one of our most beloved and popular pool options available within our Plunge Pool range. The first rectangle pool available, and the one that started it all, the Delta measures 4m x 2.3m x 1.6m and is now the second largest pool size available in our range. Featuring a step in area as well as seating along the short side of the pool, there's something for everyone with the Delta.

Our precast Plunge Pools are a popular option for the Australian backyard as they can be installed above ground, semi in ground or fully in ground. The pool will be delivered to site with your selected pool interior as well as with pre plumb, meaning that your pool can be fully installed within 1-2 days. Although we operate as a manufacturer and don't get involved with installation, we do have a network of different installers we can refer you to (location pending).

Alternatively, you can use a local builder (they don't have to be a pool builder).
If looking at ways to take your Plunge Pool to the next level we have a large range of Upgrades available. For those wanting to use their pools all year round we have heating options as well as spa covers available to suit most job requirements. If looking to incorporate a spa component to your pool we also have our Spa Jet Package upgrade.
